

Electric Airless Spray Pumps

Extremely powerful, electric airless spray pumps suitable for commercial and fine finish applications.

TriTech T4

strictly superior

Lower power consumption

Precision motor control precisely matches the motor output to the tip size.

Versatile

Operate under various site conditions and apply a wider variety of materials.

Durable

High quality, unique materials and manufacturing processes result in precision built airless sprayers.

The TriTech T4, T7 and T9 Electric Airless Pumps have proven to be the most powerful pumps in their class. With their pressure changing abilities, they are suitable for both commercial high viscosity coatings as well as light bodied coatings, including stains and varnishes, for fine -finish applications.

	T4	T7	T9
MAX PRESSURE	3300 PSI 226 BAR	3200 PSI 220 BAR	3300 PSI 227 BAR
MAX TIP SIZE	0.023"	0.027"	0.031"
MAX GPM	0.57 GPM 2.17 LPM	0.74 GPM 2.81 LPM	1.05 GPM 3.97 LPM
MOTOR HP	1.1 HP	1.4 HP	2.1 HP
WEIGHT	21.3 KG	35 KG	43.1KG

Longest lasting airless pumps in their class!

TriTech T7 / T9

Precision Motor Control **PMC**

- More powerful motor
- Longer stroke, 20% more output.
- Balanced fluid manifold
- No pulsation delivery of paint at any pressure setting
- No cylinder to wear out
- Long life pump
- Light weight, easy to carry as a stand model
- Most powerful hand carry unit in its class
- Professional Airless Sprayer
- All metal construction

Pump | Filter | Manifold

- Unique design for inserting the piston while repackaging the pump ensures correct alignment through both packings
- One manifold for both the filter and pump section – no tubes or hoses needed
- Easy to clean
- Aerospace grade materials – no rusting
- Ease of maintenance
- Unrestricted material flow
- Pressure relief valve housing is made from high quality stainless steel – long life and reliability

— strictly superior —

TriTech T360 Spray Gun

Max working pressure: 3600 psi (245 bar)

The T360 is a high quality spray gun that is lightweight and balanced. Made from quality aluminium and stainless steel it has proven to be strong, durable and reliable.

Advantages

Positive shut-off	Reduced hand fatigue
Superior design	1/4NPT inlet ports
In-hand filter (easy access)	Light weight
Built-in hose swivel	2 or 4 finger trigger
Lockable trigger	Wide range of spray tips

Contractor's Airless Spray Tips

Max working pressure: 3600 psi (245 bar)

Longest lasting, highest quality tip and guard available to today's professional painter. TriTech's series of contractor's spray tips includes 122 different fan pattern / orifice size combinations.

- Patented seal alignment for quick and accurate installation
- Mega-hard tungsten carbide for long duty life
- Tip size tag for quick and accurate size identification
- Tip ring feature allows you to store tips on a belt clip or hook
